Genealogical Record

Descendants of

Preacher Abraham Burkholder Ebersole

+ and his wife Anna Ebersole Rutt

THE UNIVERSITY OF CHICAGO

LIBRARY

1215 EAST 58TH STREET

CHICAGO, ILL. 60637

At the tri-ennial reunion of the descendants of Preacher Abraham Ebersole held in Goshen in the summer of 1951 someone suggested that the undersigned collect genealogical data for a report on the location, number and religious affiliation of the members of the family. The reception of that report at the reunion in 1954 seemed to warrant an attempt to make the record more complete and to place it in some permanent form. The present monograph is the result of further research. Thanks are due the Business Office of Goshen College for printing this report by the multilith process.

1812867

The triennial reunion began as an informal meeting of the surviving uncles and a few of the older cousins at the home of Rev. and Mrs. Amos E. Kreider in Bluffton, Ohio, about twenty years ago. For those who were fortunate enough to be present at that gathering it remains an unforgettable experience of joyous reminiscence and fellowship. To hear the uncles, Abram and Sol and Amos, and some of the older cousins, particularly Noah Byers, relate stories of their boyhood and youth in Sterling, Illinois, and in a reverent but frank manner characterize Father and Mother Ebersole and some of their contemporaries in the Science Ridge Congregation, brought vivid, living images even to the in-laws who were receiving their initiation into the family traditions. Relaxed and happy in the intimacy of the family circle, the uncles seemed more like care-free college students on vacation than men who had carried heavy administrative burdens in religious, educational and professional circles.

After a decade of rather irregular meetings, it is becoming a tradition to hold the Abraham Ebersole Family Reunion at three-year intervals at Goshen, Indiana. The older cousins, Noah Byers, Frank Ebersole and Amos Kreider, help to keep alive the memory of the two hardy progenitors who have transmitted to their descendants a large measure of religious piety, intellectual breadth and physical stamina.

## Explanation of the Numbering System

Following the name and date of birth of each descendant who has grown to maturity is a number. For example, "1. Elias Jan 8 1947 (No. 2)" indicates that Elias is the first child of his parents and that his own family number is 2. This figure 2 appears again at the head of his family record -- "No. 2 Second Generation 1." The numeral, 1, at the right refers back to the family of his parents, Abraham and Anna Ebersole.
